

The S-STEM Scholarship Application

The S-STEM Program is a scholarship opportunity for Math, Computer Science, Information Security, Environmental Science, Biotechnology, and Biology majors. S-STEM scholars will receive Scholarship amounts up to \$9,800 per student, per year for four years. This will cover some of the unmet need after accounting for need-based scholarships, other financial aid, and loans. In addition to the scholarship money students will be provided;

- Peer mentors and tutors to ensure the scholar is successful inside and outside the classroom
- STEM 101 and STEM 102 course to help the scholars easily transition to college and learn about careers in STEM
- Career development and mentoring

Who can apply?

Pell-eligible students majoring in Math, Computer Science, Information Security, Environmental Science, Biotechnology, and Biology.

Email_____

Name_____

Address_____

Preferred Phone Number_____

Student I.D._____
